

## 防护装备系列 DEFENSE

全球各地的防御部队必须保持高度战备状态，能够迅速展开并确保关键装备的交付；而这一切都依赖于安全可靠的运输和储存设施，由经过认证的运输和储存箱进行配合。成功的部署必须独立于天气和气候条件、地形和环境；无论是湿润丛林还是冰冻苔原，所有装备都必须安全抵达、便捷存放并随时投入使用。

凭借多年经验，我们在符合高度严格的危险货物安全运输和国际运输条件规定方面积累了可靠而独特的实践经验，并提供专业符合联合国、北约或欧盟（HAZMAT）规定的包装箱。B&W不仅为各种部署提供最佳移动防御解决方案，还在非部署活动和单个设备储存上提供安全存储解决方案。

Defense forces around the world must maintain a high level of readiness, be able to quickly deploy and ensure the delivery of critical equipment; And all of this relies on safe and reliable transportation and storage facilities, coordinated by certified transportation and storage boxes. Successful deployment must be independent of weather and climate conditions, terrain, and environment; Whether in humid jungles or frozen tundra, all equipment must be safely accessible, conveniently stored, and ready for use at any time.

With years of experience, we have accumulated reliable and unique practical experience in complying with highly strict regulations for the safe transportation of dangerous goods and international transportation conditions, and provide professional packaging boxes that comply with United Nations, NATO, or European Union (HAZMAT) regulations. B&W not only provides the best mobile defense solutions for various deployments, but also offers secure storage solutions for non deployment activities and individual device storage.

## DEF-COM.CASE

这是一种既能够运输又能够储存的解决方案；它具有成本高效和节省时间的特点。由于无需使用背包，该箱子还可用作现场储存解决方案。在与北约合作伙伴已经实施的一个项目中，我们成功地将1200块电池打包完成只用了1.5小时。

Transport and storage solution in one; cost-efficient and timesaving: As no back-packing is necessary, the case also serves as a storage solution on site. In a project already realised with a NATO partner, 1200 batteries could thus be packed within 1.5 hours.

## DEF-POWER.CASE

这是一个在极端条件下可持续供应移动电源的理想防护箱。耐高温的箱体能够可靠地为通信系统、计算系统、运营中心以及医疗治疗设施等提供电力支持。

This is the ideal case for sustainable mobile power supplies under extreme conditions. This temperature-resistant case reliably supplies power for communication-systems, computing systems, Operations Centers as well as Medical Treatment Facilities, etc.

## DEF-POWER.CASE

对于不稳定和有缺陷的电池来说，获得ADR P911包装认证是确保其在运输过程中灵活和安全的关键。

The first case which holds the ADR P911 packaging certification; essential for flexible and the safe transport of instable and defective batteries.

## STARLINK.CASE

由B&W国际提供的STARLINK箱可在无常规连接的环境下实现卓越的移动互联网性能。得益于集成电源供应，STARLINK箱非常适用于最偏远的户外应用，并且可以独立运行长达24小时。

The starlink.case from B&W enables mobile internet with highest performance - even in places where no connection is regularly available. Thanks to the integrated power supply, the starlink.case is thus ideal for the most remote outdoor applications and can be operated autonomously for up to 24 hours.

## DEF-ARM.CASE

使用这款武器箱，您将拥有一个高度灵活且多功能的物流解决方案；它集武器箱和运输储存箱于一体，并已被北约伙伴国广泛部署使用。

With the weapon chest, you possess an extremely flexible and versatile logistics solution; a dual weapon chest and Transport & Storage case in one. A solution which complies with all legal requirements, and the Weapons Chest is already being deployed by NATO partners.
